Bobby & moi

A juggler encounters a musician's voice and while the record plays, they tease and get to know each other, letting us have a glimpse into their worlds.

The two soloists play off each other and form an unlikely duo of complete understanding and tenderness.

A show with lots of mischief, where balls play hide-and-seek, hats fly off, objects and music notes entwine...

A walk strewn with surprises in a universe of tenderness, full of magic and poetry...

Visual show, no speech, suitable for all ages - 25 minutes

Bobby & moi

Words from audience

"A table, a chair, a coat stand and a case... a record sleeve. We wait. He comes alone, smiles and invites us in. He opens the record player case and carefully places the record on the turntable... Bobby arrives on stage.

Irresistable, spellbinding, his voice fills the air. A knowing look, a hat flies off and the game begins... The visual accompanies the music, the music accompanies the visual. Both men oscillate between duo and dual, one juggling with notes, the other with objects. Both enjoy themselves and share the fun with us.

Just like a break from the ordinary, a break with rhythm, with a smile, all in good cheer. Time stands still, and we just feel good... spectators to this pulsating relationship which is alive and breathing as long as the LP record is playing, and then... disappears."

Frederic PERANT, alias "Fred Cie Poc" : Artistic director / Performer

Frédéric has been a juggler, object manipulator, musical gesture and street performer for over 20 years. He has gradually built up his own vision of juggling, in a beautiful fusion of originality, passion and talent.

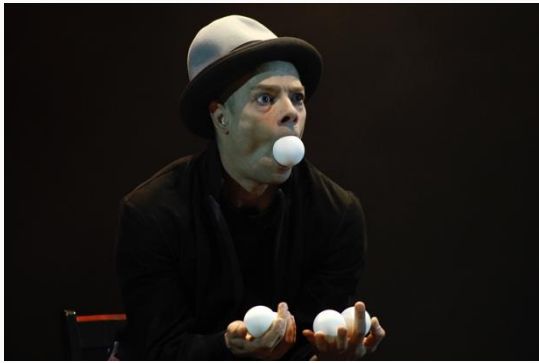

Through his encounters, magic has become part of his world and the natural catalyst essential to this alchemy. His work on Juggling, Magic and Music has been the recipient of international magic awards as the **Mandrake d'Or 2013** and the **Golden Magic – Moscow 2015**.

It has been acclaimed for **FISM, World Championships of Magic Korea 2018**, White Perm Convention 2014- Russia / Le Plus Grand Cabaret du Monde 2012 / 45th AMA Awards Show – Magic Castle Los Angeles / Blackpool Magic Convention 2012 / Masters of Magic 2012 / FISM 2012 Blackpool / BIFM 2012 Busan Korea / French Congress of Illusion 2011 and many TV shows in Italy, China, Russia, Portugal...

For the last 3 years, his researches on musicality of juggling, place the juggler as a real musician, and his objects as real instruments : incorporating bounces, shots and trajectories of balls in the musical composition and body-percussion choreography. A practice where we look at music and listen to movement. On this work, he has been collaborating closely with Mikis Papazof, a body-percussionist and Guillaume Lancou, a multi-instrumentalist, who perform with him in his last show BPM.

REBONDISSEMENT...

Bouncing, Hat and Magic

More than a juggling act, « Rebondissement » is a magic potion which takes us into an offbeat universe which is both sensitive and funny. Performance and precision, comedy and magic, humour and poetry. A clever mix with a surprising and effective result !

« Fred Compagnie Poc the sedentary juggler who stormed the Blackpool Convention Gala last February, repeated his triumph, getting a standing ovation for his incredibly precise ball bouncing skills. An unusual act and as most of it is performed while seated, unlike that of any other juggler I have yet seen » **Magic Week** <http://www.magicweek.co.uk>

« Compagnie Poc from France had the magicians clamouring for more with an incredible hat juggling and ball sequence that saw the Opera House rise to its feet. » **GENII Magazin 2012**

BPM /Juggling Concert

Musical theater, musical choreography or rhythmic experience... Musicians transform their objects and bodies into musical instruments, balls and bounces into notes, for an unclassifiable concert with 2 body-percussionists-jugglers and a multi-instrumentalist musician (piano, bass, guitar, melodica, MAO)

A musical and human quest, where music is looked at and movement listened to!
